## MILK BOARD MEMBERSHIP AND ACTIVITIES

Elmer D. Daum, B.A., C.A., and J.L. Gilbert remained as Chairman and Member of the Milk Board respectively during 1984. On April 18, 1984, the Minister of Agriculture and Food appointed Mr. Walter Goerzen as a Member of the Milk Board. Mr. Goerzen replaced Mr. Frank Bradley, who had been a Member of the Board since 1981.

The Board would like to acknowledge and thank Mr. Bradley for his valued contribution to the British Columbia dairy industry as a Member of the Milk Board since April 1981.

The Board held many meetings to discuss matters of Policy and held numerous additional meetings with producers, vendors, and other interested parties, to discuss matters pertinent to the milk industry. Board representatives attended meetings of the Dairy Committee of the British Columbia Federation of Agriculture and the Board Members attended the Federation's Annual Convention.

The Board members, the Administrator, and Members of the Market Share Advisory Committee continued discussions on behalf of the British Columbia dairy industry, concerning participation in the federal industrial milk supply management program. These discussions resulted in British Columbia re-entering the National Milk Marketing Plan effective November 1, 1984. Under the terms of re-entry, British Columbia's share of the national industrial milk market will be based on the performance of the Provinces fluid milk sales. Total production under the fluid and industrial milk supply management program will be on a ratio of 65 percent fluid and 35 percent industrial. The Administrator continued to serve on the Secretariat to the Canadian Milk Supply Management Committee.

The Chairman and the Administrator attended the Annual Meeting of the International Association of Milk Control Agencies held in Reno, Nevada.

In addition to these regular activities, the Board held two hearings respecting the status of producers associated with co-operatives.

The Board continued to pursue a complaint received during 1983 concerning a possible violation of the below cost selling provision of the Milk Industry Act. It is anticipated the difficulties pertaining to the matter will be resolved and finalized during 1985.

Two legal actions were commenced during 1984 against unlicensed producers who refused to remit levies on milk marketed outside the scope of both the fluid and industrial milk supply management programs. The first action was discontinued and a second commenced dealing with substantially the same issue. This second action is proceeding to the courts during 1985.

During 1984 the Boards two staff auditors took early retirement. The Board would like to recognize and thank Jack McIntosh and George Carothers for their years of dedication and service to both the Board and the dairy industry. At the time of their retirement they had served 27 and 25 years respectively with the Board.

The vendor audit function formerly performed by the staff auditors is now being performed by the firm of Thorne Riddell, Chartered Accountants.

## MARKET SHARE ADVISORY COMMITTEE

J. Waardenburg, R. Emblem and J. Schalin continued to serve as members of the Market Share Quota Advisory Committee. The Committee held meetings to discuss matters of policy and administration related to the Industrial Milk Supply Management Program and market sharing quotas. They also participated in meetings with producers and other interested parties on subjects related to this program.

The Board is indebted to the members of the Market Share Advisory Committee for their assistance over the years and would especially like to thank them for the contribution they made in negotiating British Columbia's re-entry into the National Milk Marketing Plan.
